**FOSTER FAMILY NETWORK FOSTER FAMILY AGENCY CONTRACT
COMPLIANCE MONITORING REVIEW**

The Department of Children and Family Services (DCFS) Out-of-Home Care Management Division (OHCMD) conducted a review of Foster Family Network Foster Family Agency (the FFA) in January 2013. The FFA has one licensed office in the Fourth Supervisorial District, and provides services to County of Los Angeles DCFS foster children and youth. According to the FFA's program statement, its mission is to offer "long/short-term foster care and placement for children working toward family reunification and permanency."

At the time of the review, the FFA supervised 73 DCFS placed children in 50 certified foster homes. The placed children's average length of placement was 15 months, and their average age was seven.

SUMMARY

During OHCMD's review, the interviewed children generally reported: feeling safe at the FFA; having been provided with good care and appropriate services; being comfortable in their environment and treated with respect and dignity. The certified foster parents reported they were supported by the FFA staff in their efforts to provide care, supervision and service delivery to the children placed in their homes.

The FFA was in full compliance with 6 of 11 sections of our program compliance review: Licensure/Contract Requirements; Certified Foster Homes; Health and Medical Needs; Psychotropic Medication; Discharged Children and Personnel Records.

"To Enrich Lives Through Effective and Caring Services"

OHCMD noted deficiencies in the area of Facility and Environment related one certified home's exterior grounds and children's bedroom not being maintained, the home did not have sufficient educational resources or an adequate supply of perishable food, and the home did not maintain logs regarding disaster drills or allowance logs.

OHCMD noted three findings in the area Maintenance of Required Documentation and Service Delivery with regard to the Needs and Services Plan (NSP).

Findings in the Education and Workforce Readiness area included one certified foster parent not having any educational records of two children and one youth had not received youth development services.

OHCMD also noted that in the area of Personal Rights and Social/Emotional Well-Being, one child reported his certified foster parent yelled at him.

In the area of Personal Needs/Survival and Economic Well-Being, one certified foster parent did not have records for OHCMD to verify appropriate clothing expenditures and inventory, and three certified foster parents did not encourage and assist children with their life books.

It should also be noted that all of the deficiencies, with the exception of Life Books, were found in one of the four foster homes visited. The FFA has retrained this certified foster parent and provided her with the missing documents for each placed child. The three remaining homes met all contractual standards.

Attached are the details of our review.

REVIEW OF REPORT

On February 7, 2013, the DCFS OHCMD Monitor, Thomas Manning, held an Exit Conference with the FFA representatives, Ms. Kathy Hughes, President/CEO, Monica A. Quenones, Deputy Executive Officer/Chief Operations Officer, and Cherrie Gibbs, Southern Regional Administrator. The FFA representatives: agreed with the review findings and recommendations; were receptive to implementing systemic changes to improve their compliance with regulatory standards; and agreed to address the noted deficiencies in a Corrective Action Plan (CAP).

A copy of this compliance report has been sent to the Auditor Controller and Community Care Licensing.

The FFA provided the attached approved CAP addressing the recommendations noted in this compliance report.

OHCMD will confirm that these recommendations have been implemented during our next monitoring review.

**FOSTER FAMILY NETWORK FOSTER FAMILY AGENCY
CONTRACT COMPLIANCE MONITORING REVIEW
FISCAL YEAR 2012-2013**

SCOPE OF REVIEW

The following report is based on a “point in time” monitoring visit. This compliance report addresses findings noted during the January 2013 review. The purpose of this review was to assess Foster Family Network FFA (the FFA’s) compliance with the County contract and State regulations and included a review of the FFA’s program statement, as well as administrative internal policies and procedures. The monitoring review covered the following 11 areas:

- Licensure/Contract Requirements,
- Certified Foster Homes,
- Facility and Environment,
- Maintenance of Required Documentation and Service Delivery,
- Educational and Workforce Readiness,
- Health and Medical Needs,
- Psychotropic Medication,
- Personal Rights and Social Emotional Well-Being,
- Personal Needs/Survival and Economic Well-Being,
- Discharged Children, and
- Personnel Records.

For purposes of this review, 11 children were selected for the sample. OHCMD interviewed eight children. Of the three remaining children that were not interviewed, two were non-verbal. One child started to cry at the start of the interview and said she did not want to be interviewed. We reviewed each child’s case files to assess the care and services they received. Additionally, five discharged children’s files were also reviewed to assess the FFA’s compliance with permanency efforts. At the time of the review, five placed children were prescribed psychotropic medication. We reviewed their case files to assess for timeliness of Psychotropic Medication Authorizations and to confirm the required documentation of psychiatric monitoring.

OHCMD reviewed four certified foster parent files and five staff files were reviewed for compliance with Title 22 Regulations and County contract requirements. Interviews were conducted with four certified foster parents to assess the quality of care and supervision provided to children.

CONTRACTUAL COMPLIANCE

OHCMD found the following five areas to be out of compliance.

Facility and Environment

- One certified foster home visited had old paint cans in the rear yard; two smoke detectors did not work in the children's bedrooms; the home did not have fresh fruits; children were using a broken dresser in one bedroom; there was no documentation of disaster drills, clothing and monetary allowance logs were not being kept; no internet connection for children to use computer for school work; and the home had safety bars on bedroom windows, but the children did not know how to work the bars' release locks. These findings were immediately brought to the FFA's attention after the visit and subsequently corrective action was taken the following day. Additionally, during the Exit Conference, the FFA Administrator provided pictures of newly installed smoke detectors, a receipt for a new dresser, and a picture showing paint cans were removed from the rear yard. The FFA Administrator stated that the foster parent and staff members will include training in the operation of the windows' bar releases in disaster drills.

Recommendation

The FFA's management shall ensure that:

1. All certified foster homes' grounds are well maintained and free of safety hazards.
2. All certified foster homes' interiors have adequate furniture and certified foster homes' children's bedrooms are well maintained with no broken furniture.
3. All certified foster homes maintain educational resources including computers with internet access if minors are age-appropriate.
4. All certified foster homes shall have fresh fruits available.
5. All certified foster parents conduct disaster drills and use of window bar releases if applicable along with documentation.
6. All certified foster parents maintain allowance and clothing allowance logs.

Maintenance of Required Documentation and Service Delivery

- OHCMD noted that in one foster home, the foster parent did not have a copy of the Needs and Service Plans (NSPs) and Updated NSPs. We were unable to assess whether the children were progressing toward meeting NSP goals. The FFA Administrator reported they provided the foster parent with a copy of each child's NSP and stated efforts made to implement treatment goals will be documented in the case files. The foster parent was provided with copies of the children's educational records and provided additional training on documenting services.

The FFA's management stated in the attached Corrective Action Plan (CAP) that:

- The FFA Administrator reported they provided the foster parent with a copy of each child's NSP.
- The FFA stated efforts are being made to implement treatment goals and document in the case files.
- The FFA will monitor all NSPs to ensure they are updated timely.
- The FFA Administrator stated all FFA social workers have been reminded to monitor maintenance of life books, and to remind foster parents to assist children with their life books.

The FFA has hired a master's level Quality Assurance staff person to review their files and monitor their CAPs.

Recommendation

The FFA's management shall ensure that:

7. All children's progress towards meeting the NSP goals is documented.
8. All foster parents are provided with a copy of the NSPs.

The FFA representative attended the OHCMD NSP Training for providers on January 23, 2012 and is aware of the NSP requirements.

Education and Workforce Readiness

- OHCMD found one certified foster parent did not have the educational records for two foster children. Additionally one certified foster parent did not encourage one age appropriate foster child to participate in Youth Development Services (YDS). The FFA Administrator stated that copies of educational documents have been provided to the certified foster parent. Additionally, a request was made to the Children's Social Worker (CSW) for YDS services for the one foster child.

Recommendation

The FFA's management shall ensure that:

9. All certified foster parents have copies of the foster children's educational records.
10. All certified foster parents shall facilitate age-appropriate children in YDS equivalent services.

Personal Rights and Social/Emotional Well-Being

- One foster child reported being yelled at by his certified foster parent. The FFA Administrator stated the certified foster parent has received refresher training on personal rights of foster children. The FFA Administrator provided the training documentation.

Recommendation

The FFA's management shall ensure that:

11. All certified foster parents are trained to treat children with respect and dignity.

Personal Needs/Survival and Economic Well-Being

- One certified foster parent's files revealed that the certified foster parent did not maintain a log of the children's clothing allowances and clothing inventory. However, the FFA's files contained copies of these documents and the FFA Administrator was able to subsequently provide them to the certified foster parent for their files. In three of the foster homes, certified foster parents did not encourage and assist children with life books. The FFA Administrator stated all social workers have been reminded to monitor maintenance of life books, and to remind foster parents to assist children with their life books.

Recommendation

The FFA's management shall ensure that:

12. All certified foster parents document and keep copies of clothing expenditure and receipts.
13. All certified foster parents perform clothing inventory and document quantity and quality of minors' clothing.
14. All certified foster parents assist all foster children with their life books.

PRIOR YEAR FOLLOW-UP FROM DCFS OHCMD's FOSTER FAMILY AGENCY CONTRACT COMPLIANCE MONITORING REVIEW

The OHCMD's last compliance report dated August 15, 2012 identified 10 recommendations. Based on OHCMD's follow-up, the FFA fully implemented six of the 10 previous recommendations for which they were to ensure that:

- Eliminate Community Care Licensing citations for physical deficiencies.
- Age-appropriate children participate in development of NSPs.

- Timely comprehensive initial NSPs are discussed with children.
- Initial medical examinations are timely.
- Initial dental examinations are timely.
- Timely psychiatric evaluation reviews are conducted.

Based on OHCMD's follow-up, the FFA did not fully implement four of 10 previous recommendations for which they were to ensure that:

- NSPs are implemented and discussed with foster parents.
- Children's progress towards meeting goals are documented.
- Timely comprehensive updated NSPs are discussed with children.
- Children are encouraged and assisted in updating their life books/photo albums.
